Model : Vayu Shudha / वायु शुद्ध

Sanitary Napkin/Mask Incinerator

Globally, first of its kind.
Reduces used napkins to sterile ash, in matter of seconds.

SPECIFICATIONS

BASIC SPECIFICATIONS

Cabinet	CRCA Sheet duly chemically treated & powder coated
Combustion Chamber	SS 304 2mm
Cabinet dimension	650mm x 310mm x 310 mm
Weight of Machine	30kg ± 5%
Type of Products disposed	Used Sanitary Napkins/Masks
Disposal Capacity	16-25 napkins/Cycle
Residual ash	Less than 2%
Insulation	Yes
Emission Outlet	Provided
Mounting	Wall

Smoke Control Unit	YES
Power Supply to Smoke Control Unit	YES

ELECTRICAL SPECIFICATIONS

Power Supply	Power consumption
230 v Ac/50 Hz, 15 Amp	0.6 unit per cycle

OTHER FEATURE

PCB controlled functioning
Easy installation
Aesthetically sleek design
Energy efficient - low power consumption
Low maintenance
Easy operation & handling
New generation machine of latest international standard technology.

CERTIFICATION

Manufacturing Unit Certification	The National Smell Industries Cooperation Ltd No. NSIC/GP/IND/R-19/20-21/105 Udhyan Registration Udhyan- MP-23-0001935
Emission Standard Certification	As per Swachh Bharat Mission Grameen Phase II Operational Guideline May 2020

ELECTRONIC SPECIFICATIONS

Operation Control	PCB controlled with auto cycle time settable
Power on indication	Yes
Heater "ON" Indication	Yes - LED
Temperature indicator	LCD Display
Temperature control	Settable, upto 850°C
Temperature cutoff	Yes with LED indication, Temperature Settable
Electric Hazard safeguard	Short circuit protected
Power Saving	Auto cut off

KEY BENEFITS :

- Disposal of used Napkins / Masks in the most hygienic way
- No more clogging of drains, repairing / plumbing
- Eco friendly : used napkins are converted into sterile ash
- Can be installed in Offices, Factories, Girls' Schools, Colleges and Hostels, Hospitals and Nursing Homes, public places, Hotels etc.

The Company has ISO 9001:2015 certification for Quality Management System for the Manufacture, marketing, installation and services.
